

Costs

Juxian Lu-Hesselmann, Medical Doctor, former MD in the Federal Armed Forces of Germany, was born and professionally educated in the People's Republic of China, studied Western medicine as well as Traditional Chinese Medicine (TCM), received a MD degree in Germany and has worked in the medical profession in the P.R. China for five years as well as in Germany for more than 20 years.

In her profession, Dr Lu-Hesselmann combines an intensive knowledge of Western medicine with the wisdom and insights of TCM.

She puts the individual needs of her patients at the center of her work. A thorough, holistic diagnosis forms the optimal basis for a personalized, lasting, and successful treatment. The aim of Dr Lu-Hesselmann and her team is to achieve optimal results for each and every of her patients.

Services are invoiced and calculated according to the German medical fee schedule (Gebührenordnung für Ärzte/GOÄ) and must be individually paid.

Patients with private health insurance generally receive a full refund of these costs from their private insurance company.

Patients with German statutory health insurance coverage (Gesetzliche Krankenversicherung/GKV) must pay the costs individually according to the mutually agreed fee schedule. In specific cases (e.g. chronic low-back pain or knee joint arthritis), the GKV may take over all or parts of the costs.
